

Simple . Scientific. Impactful

Role : Training Assistant, 1 month contract (approx)
Location : Online
Deadline : Sunday, 22 August 2021, 17.00 WIB.

nudgeplus is looking for an individual who can help during our behavioural change communication for a capacity-building workshop.

Who are we?

nudgeplus is the pioneer of nudge services in Indonesia. **nudgeplus** is established to meet a huge demand in hacking notorious behavioural problems in Indonesia with the backup from the fast-growing development of behavioural science globally. Our goal is to narrow the gap in knowledge of behavioural science and help public and private institutions and non-profit organisations change their stakeholders' behaviour through RCT (research, consultancy, and training). **nudgeplus** is a multidisciplinary team with a good mix of people from Behavioural Economics, Psychology, Engineering, Data Science, etc.

nudgeplus is supported by a trained professional by World Bank and other top-level behavioural science institutions. **nudgeplus** collaborates closely with the IBEF (Indonesia Behavioural Economics Forum), which consists of Indonesian scholars who studied behavioural science in the top-level universities in the world.

OPEN RECRUITMENT!!

We are hiring short-time positions to be part of the team for capacity building 'nudge' training in water, sanitation and hygiene (WASH) project.

The training runs for seven days in August (26, 27) and September (2, 9, 10, 22, 23), while project completion is expected to end at end of September/early October. This position is part-time.

What we ask you to do?

In general, we expect the candidate to:

- Coordinate with participants and facilitators during training;
- Manage participant's online learning process (WAG) throughout the project duration;
- Manage online training logistics (e.g. virtual meeting room, recording, etc.);
- Engage in data analysis
- Coordinate with the **nudgeplus** trainers during the training/facilitation process.

What we are looking for?

- At least in their final year (semester 6 above), any relevant social science (i.e. Psychology, Sociology, Economic, fresh graduate will be an advantage, with experience in organisations and / or committees (candidates with social project experience are encouraged to apply).
- Able to operate various online learning methods such as Zoom, Kahoot, Mentimeter, PadLate etc., for online learning facilitation.

Simple . Scientific. Impactful

- Understand the basics of statistics and data analysis (i.e. data cleaning, data coding), and be familiar with any statistical tools, e.g. R, Stata, SPSS, etc.

If the above points suit you, please send a maximum one-page cover letter describing qualities and experience, with CV to info@nudgeplus.net / asknudgeplus@gmail.com. The deadline is Sunday, 22 August 2021, at 17.00 WIB.
